Subject: FW: CFAC Concrete Sampling Data

Hi Brian and Susan,

I have received this from Roux, Contractor for CFAC. Would you have time to look at this and give me any comments or opinions you may have on their recommendations?

I am going up there tomorrow to look at the area and put my eyes on the areas there are proposing to use this as backfill.

Let me know if you have time and can give me your opinions.

Thanks
Mike

Subject: RE: CFAC Concrete Sampling Data

Hello Mike,

Attached you will find a draft letter describing the results of the concrete sampling activities and CFAC's proposed path forward. The letter is in draft form, as we assume we will be discussing the contents prior to finalizing.

Please let us know if you have any questions. Please also let us know when we can discuss. As you know, this is a time sensitive matter for CFAC and the demolition project.

Subject: CFAC Concrete Sampling Data

Mike,

As discussed on our call today, I am providing results from the concrete sampling in pot room #1. The two tables labeled "validated" are the samples that were collected originally in accordance with the Concrete SAP. The two "unvalidated" sets of data are the results from the recent additional sampling that was completed in accordance with the Concrete SAP modification. I have also attached a map showing the locations where the samples were collected in pot room #1.

A formal letter outlining our proposed path forward will follow.
